

DEPARTMENT CUTS

The bars are usually provided in standard lengths of 3000 - 2000 to 1000 - 600 - 500 mm.

Of course, to be able to give CUSTOMER SERVICE, we are able to cut with **BAND SAW** even rings, disks, pieces of flat bar and square according to the needs of our customers.

By **BAND SAW AUTOMATIC** we can cut very numerous piece's series.

By **LONGITUDINAL BAND SAW** is possible to cut the plates in order to provide BRONZE different widths and different thicknesses of the plates, as it is also possible to cut the blocks of CAST IRON to derive measures customized to the demands of the customer.

With the **SAW BAND SEMIAUTOMATIC** we can cut individual pieces or small series.
